PROFESSIONAL SUMMARY

Developed strong background in web development within collaborative, fast-paced environment. Expertise in creating user-centric designs and ensuring responsive, cross-platform compatibility. Seeking to transition into new field to leverage problem-solving skills and technical expertise. Information Technology undergraduate skilled in technical support, troubleshooting, and system maintenance. Knowledgeable in IoT, networking, and cloud environments, with strong analytical, communication, and problem-solving skills.

SKILLS

- Web Development & Design: HTML, CSS, JavaScript
- IoT & Embedded Systems: Arduino, Raspberry Pi, ESP32
- Data Analytics, Power BI, Tableau, SPSS
- Quick Learner and Adaptable
- Leadership and Responsibility
- Creativity and Attention to Detail
- Programming: C, Python, R
- Database Management: MySQL, MongoDB
- UI/UX Design: Figma
- Analytical Thinking and Problem Solving
- Teamwork and collaboration
- Friendly, positive attitude

WORK HISTORY

IOT DEVELOPER (ACADEMIC PROJECT) | 11/2025 to 05/2026

Dept. of Vocational Studies - Thrissur, Kerala

- Designed and developed an IoT-enabled smart restaurant management system integrating hardware and mobile application platforms.
- Implemented real-time data synchronization using Firebase to enable seamless communication between customers, kitchen staff, and administrators.
- Developed core functionalities including digital ordering, table management, and automated notification system to enhance operational efficiency.
- Optimized user experience through intuitive UI/UX design, ensuring smooth interaction and reduced service time.

FRONTEND WEB DEVELOPER (FREELANCE) | 03/2025 to Current

Self - Thrissur, Kerala

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Collaborated with clients to gather requirements and deliver tailored solutions.
- Implemented content management systems for easy client updates and maintenance.
- Provided front-end development support, creating visually appealing designs that aligned with brand standards.

IOT PROJECT DEVELOPMENT WORKSHOP | 11/2024 to 12/2024

St. Joseph HSS Meloor - Thrissur, Kerala

- Lead a 3-day IoT Project Development Workshop at St. Joseph HSS, Meloor, guiding students through practical sessions on IoT Concepts and applications.
- Self-motivated, with a strong sense of personal responsibility.
- Worked effectively in fast-paced environments.

EDUCATION

Christ College (Autonomous) - Irinjalakuda | B. Voc Information Technology (IoT & Data Science),
03/2026 | GPA: 7.156

GHSS - NANDHIKARA | Higher Secondary Education

03/2023 | GPA: 8.4

S N Vidhya Mandhir Central School - Kodaly | Secondary School (10th Grade)

03/2021 | GPA: 8.9

ACCOMPLISHMENTS

Projects:

- **SmartDine 360:** ESP32, Arduino IDE, Firebase Realtime Database,React(Vite), TypeScript, HTML, CSS, Figma
Developed an IoT-based smart restaurant management system to streamline ordering and service operations. Implemented real-time data synchronization using Firebase to enable seamless communication between customers, kitchen staff, and administrators. Designed and integrated features such as digital menu ordering, table management, and automated notifications to improve efficiency and reduce service time. Built a user-friendly interface to enhance customer experience and ensure smooth interaction across the system.
- **Student Assistant Chatbot:** Technologies: Python, MySQL
Developed a chatbot for students to check attendance, exam schedules, and academic information. Implemented keyword-based response logic and integrated MySQL for structured data storage. Automated data retrieval using Python scripts to improve accessibility and speed. Enhanced ease of student–system interaction with a simple conversational interface.
- **Car Drowsiness Detection System:** Technologies: Python, OpenCV, Dlib
Built a real-time drowsiness detection system using facial landmark tracking and blink analysis. Implemented Eye Aspect Ratio (EAR) algorithm to detect prolonged eye closure indicating fatigue. Triggered warning alerts when the system detected signs of drowsiness to enhance driver safety. Tested system performance under various lighting conditions and camera angles.
- **Portfolio Website (Self Project):** Technologies: HTML, CSS, JavaScript
Created a personal portfolio website to showcase skills, education, and project work. Designed a responsive and modern layout using HTML5 and CSS3. Added interactive features and smooth navigation using JavaScript. Optimized for mobile viewing and fast loading; deployed online via GitHub

CERTIFICATIONS

- Participation 1day Workshop on Prompt Engineering & Generative AI, 11/ 2025
- Participation 1day Workshop on UI/UX & MERN STACK, Zoople Tech, 11/2025
- Workshop on Immersive Technologies (AR, VR) | NITTTTR, Chennai, 05/2024
- Certificate Course on Web Designing with HTML | Christ College IJK, 2023-24

LANGUAGES KNOWN

Malayalam	English
Bilingual or Proficient (C2)	Upper intermediate (B2)
Hindi (basic)	
Elementary (A2)	

VOLUNTEER WORK & SERVICE

- **Christ College (Autonomous), Irinjalakuda:**
 - Phoenix Fest (Media Coordinator), 2025
 - Synapse Fest (Volunteer), 2025
 - Celluloid Film Carnival (Media Wing Volunteer),2024-25
 - NSS Member, 2024
 - Zephyrus Tech Fest (Media Wing Volunteer), 2023 & 2024
- NCC “B” Certificate Holder, NCC “B” Certificate Holder – actively volunteered in NCC activities

DECLARATION

I hereby declare that the information given above is true and correct to the best of my knowledge and belief.
